WHY ORDER FUSIONCAST?

We Are the Manufacturer

Deal with the manufacturer directly for efficiency and cost savings. We have our own in-house design department or can work with your provided specifications.

We Have the Experience

We've delivered on hundreds of successful projects on some of the most well known courses around the world. But we also pride ourselves on delivering cost-conscious solutions to public and municipal courses.

We Offer a Variety of Solutions

We provide metal and polymer golf signage solutions that will suit your course, budget and customization requirements to a tee. Mix and match high value signage with lower cost utility signs, that's our advantage.

We Deliver Anywhere

Our lightweight signage solutions make them cheaper to ship (and install) saving you money.

TESTIMONIALS

"Working with FusionCast was a really great experience! From design to delivery all went very smoothly and the product quality is exceptional! The new entrance signs to the club look awesome! I have no trouble at all recommending FusionCast, they are a wonderful company to work with!"

Alan Carter
Edmonton Country Club

"Being a memorial dedication, we were looking for quality and care. The FusionCore signs fit all our needs and our club couldn't have been more pleased with the end result."

Jenn
Red Lake Golf & Country Club

"We have been a satisfied FusionCast client for several years. FusionCast products look very professional and meet all our needs in design. They have a versatile line of products and you can always count on great service to help you get exactly what you need."

Andre Aymar
Islington Golf Club

"We installed FusionCast signage at our club 10 years ago and they still look as good as the day we bought them. When we needed a new sign for our front entrance we did not hesitate who to contact. The service received from the initial artwork design to final order confirmation and delivery was top notch. They managed to match up our existing signage perfectly, and overall we are extremely pleased with the end result."

Doug Young
Richmond Hill Golf Club

..... *VALUES OF FUSIONCAST*

REVOLUTIONARY

Stunning Bronze, Copper and Aluminum forced to the surface where you can appreciate it.

VERSATILE

Endless Possibilities. If you can imagine it, we can do it.

DURABLE

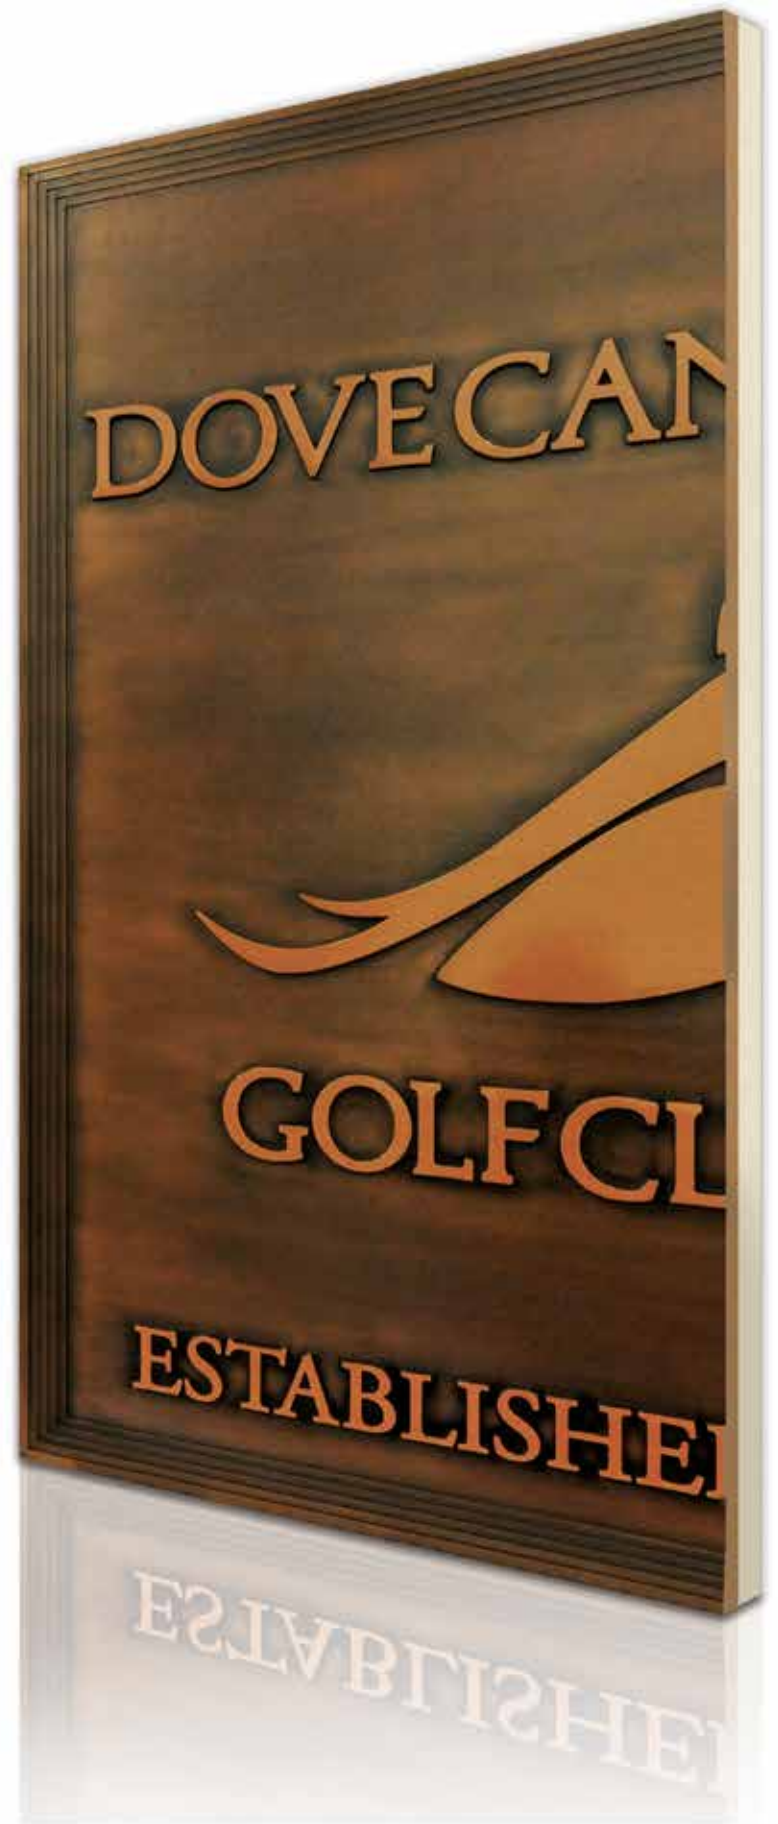

FusionCast uses a proprietary technology that fuses metal with high density urethane, the same stuff used in the space industry. The result is an elegant product with exceptional durability.

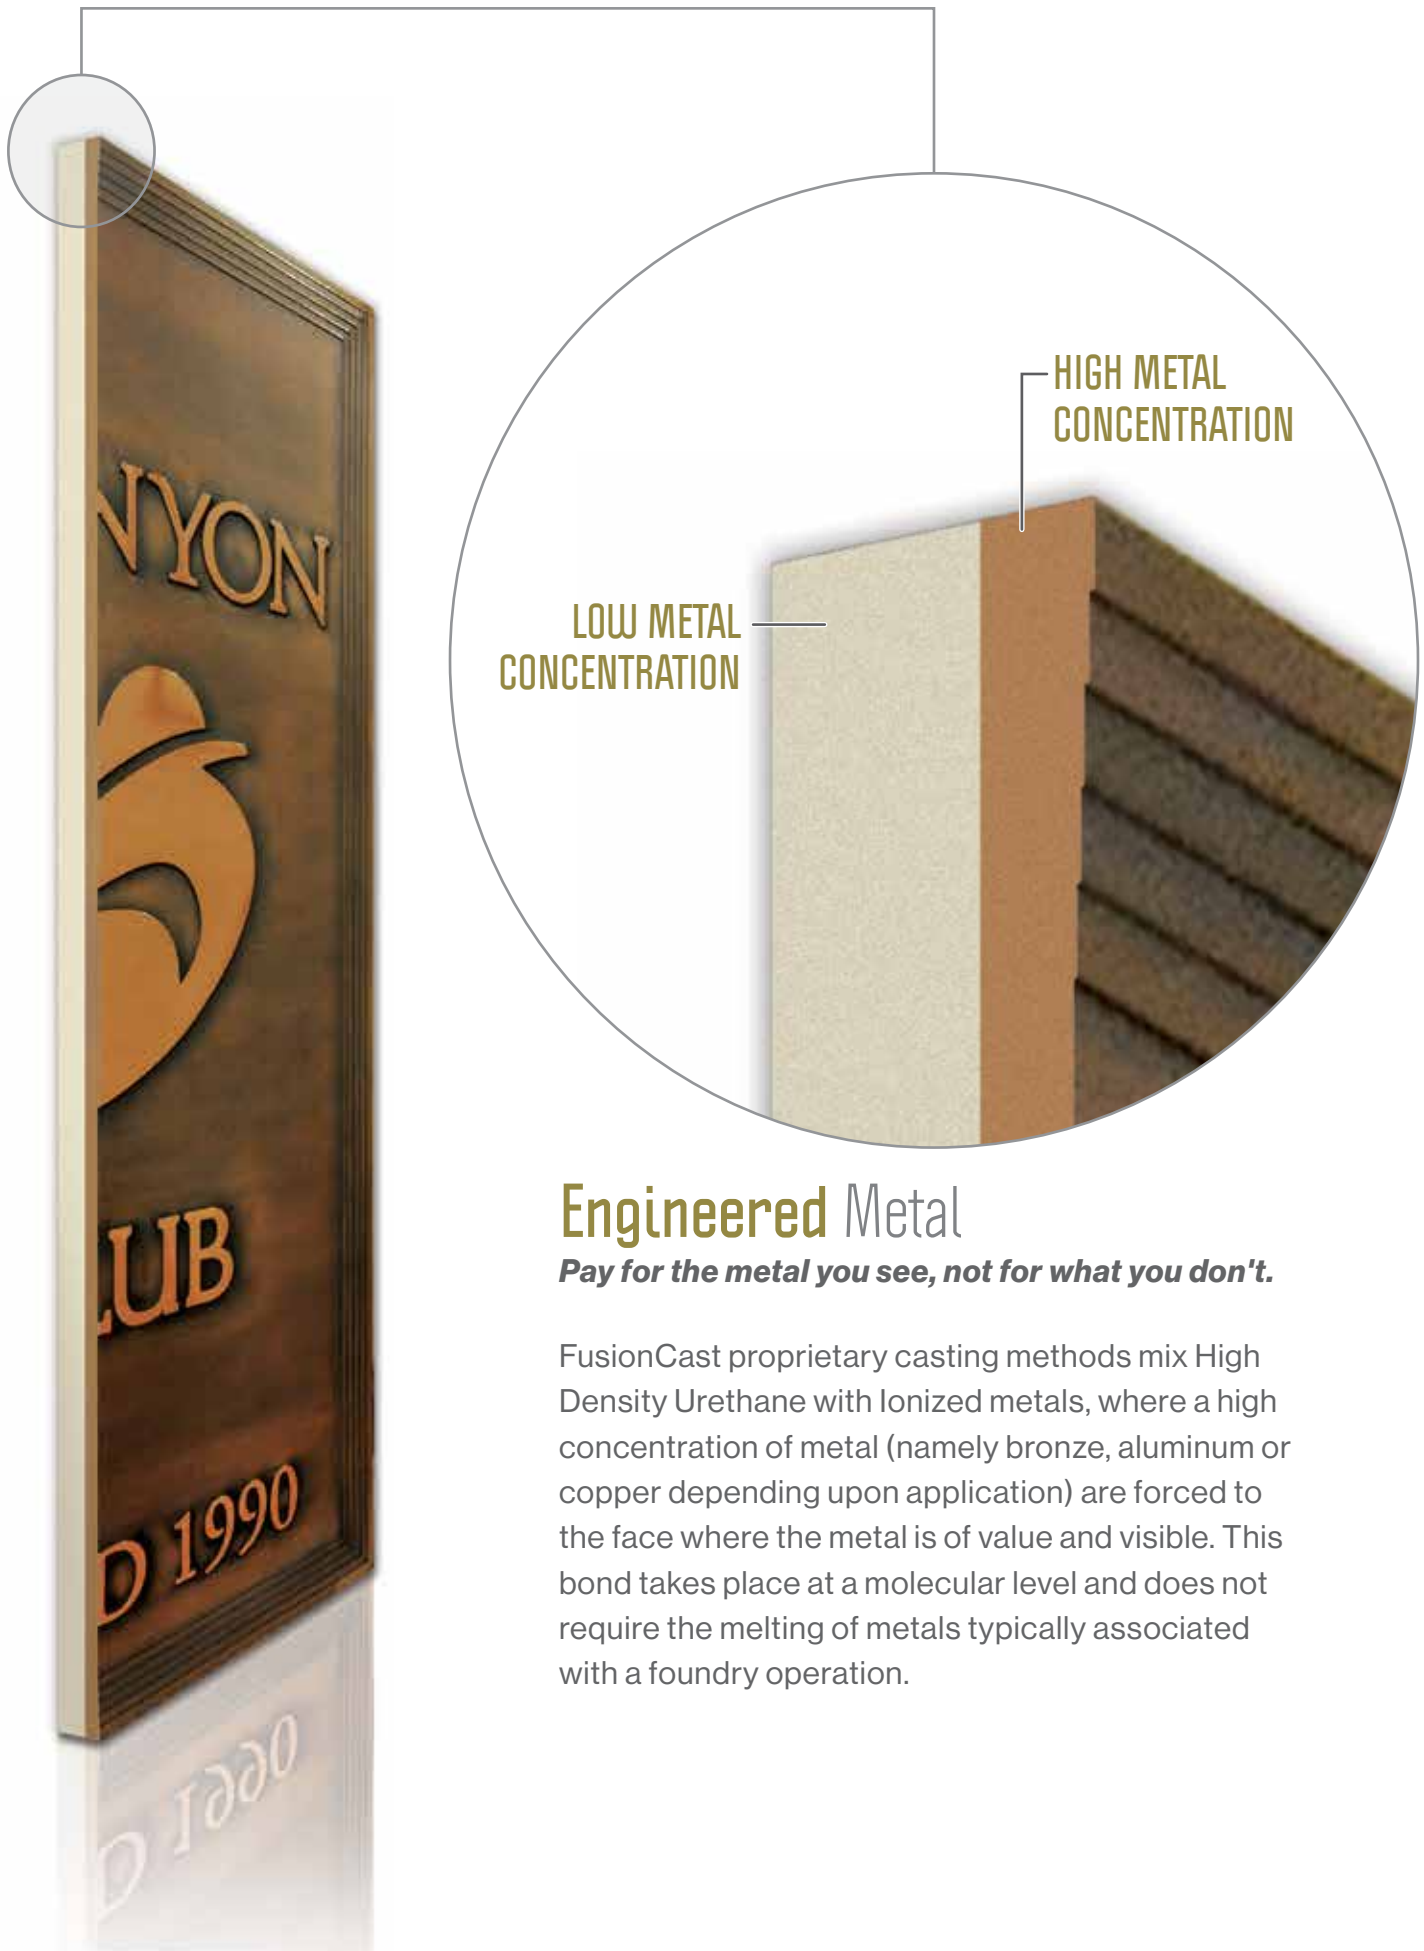

ECO-FRIENDLY

FusionCast cold casting process uses less metal, less energy, and eliminates virtually all toxic emissions into the air.

ECONOMICAL

Less metal translates into savings, without traditional pattern charges, a FusionCast sign can be 20-50% less expensive.

HIGH METAL CONCENTRATION

LOW METAL CONCENTRATION

Engineered Metal

Pay for the metal you see, not for what you don't.

FusionCast proprietary casting methods mix High Density Urethane with Ionized metals, where a high concentration of metal (namely bronze, aluminum or copper depending upon application) are forced to the face where the metal is of value and visible. This bond takes place at a molecular level and does not require the melting of metals typically associated with a foundry operation.

Table Of Contents - FusionCast

1 TEE SIGNS

FusionCast can currently be found on over 70 of "SCOREGolf Top 100" facilities.

3 SPONSOR SIGNS

Subsidize your Tee Sign Project.

5 TEE SIGN OPTIONS

.....*VALUES OF FUSIONCORE*.....

ECONOMICAL

A cost effective outdoor signage solution.

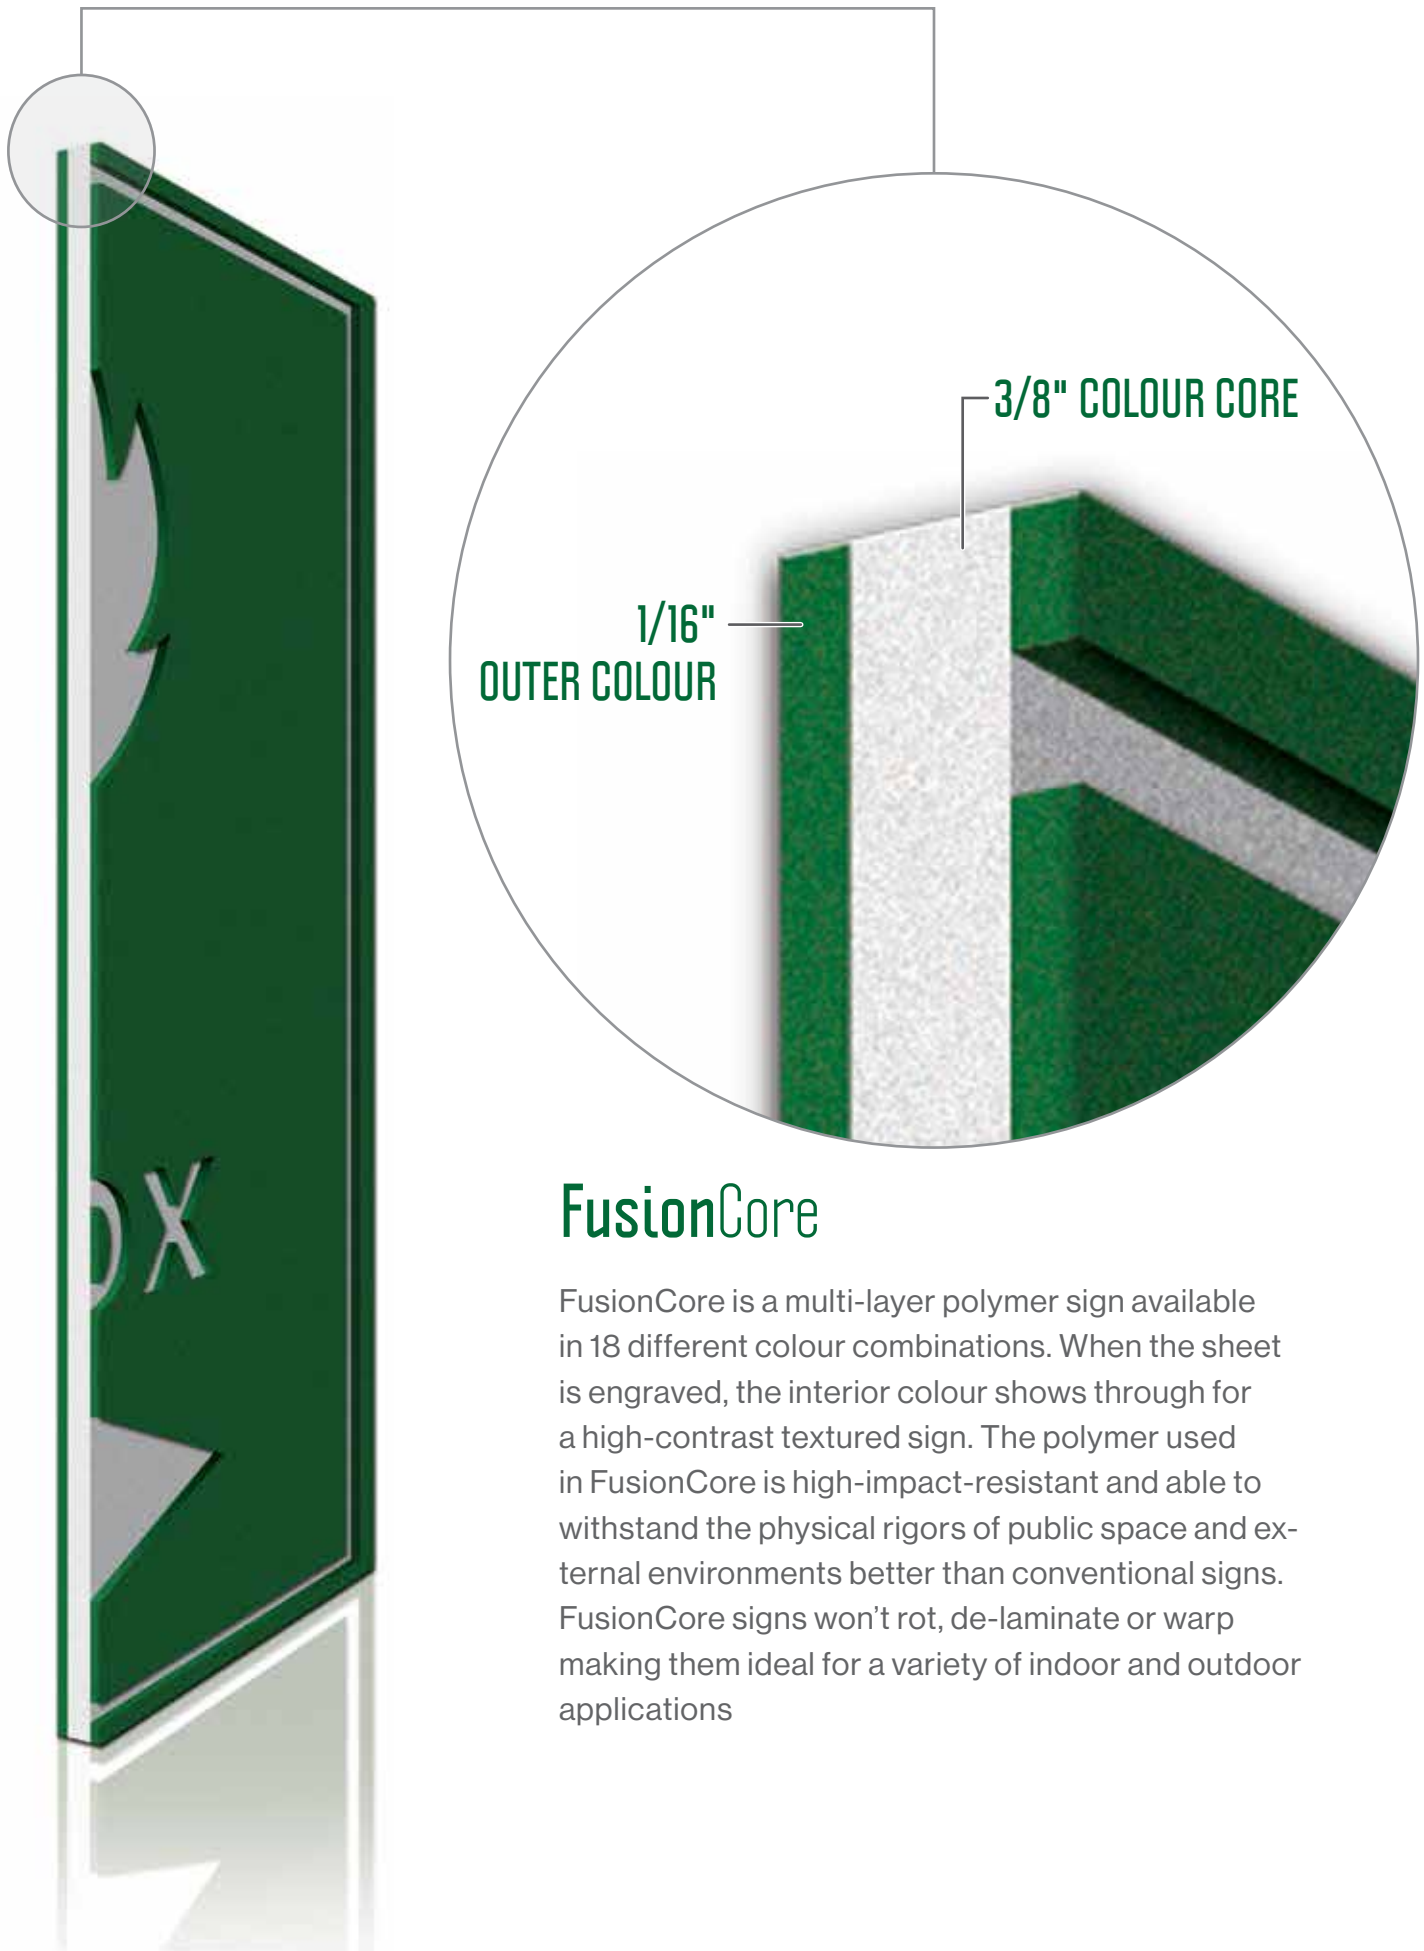

DURABLE

High-impact-resistant and able to withstand the physical rigours of public space and external environments. FusionCore signs won't rot, de-laminate or warp making them ideal for a variety of indoor and outdoor applications.

VERSATILE

Complete flexibility in shapes and sizes. FusionCore comes available in 18 different colourways, and with the ability to colourfill, options are virtually endless.

1/16"
OUTER COLOUR

3/8" COLOUR CORE

FusionCore

FusionCore is a multi-layer polymer sign available in 18 different colour combinations. When the sheet is engraved, the interior colour shows through for a high-contrast textured sign. The polymer used in FusionCore is high-impact-resistant and able to withstand the physical rigors of public space and external environments better than conventional signs. FusionCore signs won't rot, de-laminate or warp making them ideal for a variety of indoor and outdoor applications

NOTES

How to do business with FusionCast:

FusionCast operates under a blended go-to-market approach to best serve the end user. We operate through authorized dealers (both National and Regional), local sales representatives in select territories, and through our in-house team of signage experts. No matter how you choose to deal with FusionCast, we look forward to working on your project with you.

Delivery/Production time:

Our standard production time is 15-20 business days from artwork approval and project deposit receipt. Since all of our products are custom made to order, non-standard shapes and styles or full facility signage orders with a significant number of pieces can take 30-40 business days.

Terms:

All FusionCast products from ideation to final product are made to order specifically for you. We require a 50% deposit with order approval, and 50% final payment prior to shipping (including delivery costs). Our team would be happy to provide progress pictures and status updates at your request so you can see how your order is progressing. Please note pricing subject to change without notice and subject to final project quotation from FusionCast personnel.

How will my order be delivered:

Through our expansive network of freight companies, FusionCast gets preferred shipping rates for both small and large scale shipments. FusionCast gathers multiple quotes on your behalf, and we pass on the savings to you, our valued customer. If you prefer to make your own shipping arrangements, please notify FusionCast when you confirm the production of the project. Detailed tracking info will be provided to you once your order ships.

Graphic approval disclaimer:

Based on customer direction, FusionCast will provide artwork for customer approval. If logos and brand images are required, high quality ai or eps files will be required. Customer is responsible to review and approve artwork. FusionCast assumes no responsibility for spelling or content errors once customer has approved artwork. First graphic approval is free of charge – all others are subject to additional cost pending complexity. Colour is directionally correct - may vary slightly as ink jet printer quality is not consistent with actual finished goods.

Warranty:

All FusionCast products come with a 10 year limited warranty when purchased through an authorized dealer. For warranty terms and conditions, please contact FusionCast for their written warranty policy.
